TABLE OF CONTENTS

NO. 1. JANUARY 1945

Degree and nature of regeneration of splanchnic innervation to the adrenal gland two years following complete bilateral sympathectomy in dogs. JAMES W. PAPEZ, ARTHUR V. JENSEN AND H. H. DUKES 1

Restoration of vision after crossing of optic nerves and after contralateral transplantation of eye. R. W. SPERRY 15

Observations of gas bubbles in pial vessels of cats following rapid decompression from high pressure atmospheres. CARROLL E. WAGNER, PhM1c, V6, USNR. 29

Propagation of spreading cortical depression. A. A. P. LEÃO AND R. S. MORISON 33

Influence of depletion of diffusible electrolytes upon electrical activity of the brain. ERNST P. PICK AND MICHAEL M. MILLER 47

Functional organization of the giant fiber system of *Lumbricus*. THEODORE HOLMES BULLOCK 55

The precentral motor cortex. REVIEW 73

NO. 2. MARCH 1945

Electric excitability of nerve-muscle fibre preparations. STEPHEN W. KUFFLER 77

Choreiform movements in a dog suffering from cortico-striatal disease. HSIANG-TUNG CHANG 89

Electroencephalogram of different cortical regions of normal and anaesthetized cats. SAM L. CLARK AND JAMES W. WARD 99

Action of veratrine on nerve-muscle preparations. STEPHEN W. KUFFLER 113

Projection of the retina on superior colliculus of cats. JULIA T. APTER 123

NO. 3. MAY 1945

Cholinesterases in sympathetic fibers and ganglia. CHARLES H. SAWYER AND W. HENRY HOLLINGSHEAD 137

Changes in brain potentials during convulsions induced by oxygen under pressure. ROBERT COHN AND ISIDORE GERSH 155

Electroencephalographic changes following head injuries in dogs. ROBERT S. DOW, GEORGE ULETT, AND ARCHIE TUNTURI 161

Sensory-motor nerve crosses in the rat. PAUL WEISS AND MAC V. EDDS, JR. 173

The colour receptors of the mammalian retina. RAGNAR GRANIT 195

The effect of temperature on the artificial synapse formed by the cut end of the mammalian nerve. RAGNAR GRANIT AND C. R. SKOGLUND 211

NO. 4. JULY 1945

The effect of anticonvulsant drugs on recovery of function following cerebral cortical lesions. CHARLES WESLEY WATSON AND MARGARET A. KENNARD 221

Chemical changes in the cerebral cortex associated with convulsive activity. W. E. STONE, J. E. WEBSTER AND E. S. GURDJIAN 233

The functional significance of the rostral cingular cortex as revealed by its responses to electrical excitation. WILBUR K. SMITH 241

Efferent fibers of the parietal lobe of the cat (*Felix domesticus*). WALTER G. GOBBEL, JR. AND GEORGE W. LILES 257

Effects of lowering the blood pH on excitability of the nervous system. HAROLD KOENIG AND RICHARD A. GROAT 267

NO. 5. SEPTEMBER 1945

Generalized atonia and profound dysreflexia following transection of the brain stem through the cephalic pons. ALLEN D. KELLER 275

Facilitation of flexion reflex in relation to pain after nerve injuries (causalgia). E. L. PORTER AND A. N. TAYLOR 289

Electrical activity of denervated mammalian skeletal muscle as influenced by d-Tubocurarine. A. R. MCINTYRE, R. E. KING AND A. L. DUNN 297

Electrical activity of the thalamus and basal ganglia in decorticate cats. R. S. MORISON AND D. L. BASSETT 309

Nerve regeneration in cats on vitamin B_1 deficient diets. CHARLES BERRY, CHARLES NEUMANN AND JOSEPH C. HINSEY 315

Lumbar sympathetic dermatomes in man determined by the electrical skin resistance method. C. P. RICHTER AND B. G. WOODRUFF 323

NO. 6. NOVEMBER 1945

The influence of hypothalamic stimulation on cortically induced movements and on action potentials of the cortex. J. P. MURPHY AND E. GELLHORN 341

Transsynaptic and direct stimulation of post-fibres in the artificial synapse formed by severed mammalian nerve. CARL RUDOLF SKOGLUND 365

Modification by electrotonus of the transmission in the artificial synapse formed by severed mammalian muscle. CARL RUDOLF SKOGLUND 377

The localization of the premotor interneurons discharging through the peroneal nerve. C. G. BERNHARD AND BROR REXED 387

Distribution of internuncial activity in a multineuron reflex chain. C. G. BERNHARD . . 393

The relations between multiple innervation and "segmental" response of skeletal muscle of the dog. J. E. MARKEE AND HANS LÖWENBACH 409

Anatomic and physiologic properties of cutaneo-visceral vasomotor reflex arcs. ALBERT KUNTZ 421

Further investigations on diencephalic-cortical relations and their significance for the problem of emotion. J. P. MURPHY AND E. GELLHORN 431

Relation of electroencephalogram to photometrically observed vasomotor changes in the brain. CHESTER W. DARROW AND C. G. GRAF 449

The acoustic projection system: A comparative study. HARLOW W. ADES AND RICHARD E. FELDER 463
